

**SAN JOSE UNIFIED SCHOOL DISTRICT
LELAND HIGH SCHOOL
BEHAVIOR STANDARDS**

According to the State Education Code, the first priority of teachers is assuring the safety of their students. Therefore, the following rules as well as those outlined in the SUUSD Student Behavior Handbook will be enforced in order to meet this directive:

- Students found in the possession of ANY illegal drug, including alcohol, tobacco, or under the influence of ANY illegal substance will be sent home immediately at the parent's expense. Upon return to school, the student will be suspended, and subject to an expulsion hearing at the District Office, pursuant to the rules outlined in the Student Handbook.
- Students must travel in groups of three or more. Students who leave in groups of fewer than three tour participants **without the explicit permission of one of the chaperones** may be sent home.
- Students may visit in the rooms of other Leland students regardless of gender provided that the following rules are observed: students must be invited by the occupants of the room; no fewer than three students are in a room at the same time; visiting is done only during free time given; no visiting will occur after the curfew or before the wake-up call.
- Students will be given some free time. At assigned times, students must check in with their chaperones, not the other way around. Any chaperone has the authority to alter activities or to deny permission.
- All chaperones will be treated with respect.

I have read and understand these rules. Students who object to these rules may stay home. I understand that students are participating in tournaments because they are trusted by the teachers/coaches. However, I understand that these rules exist as a direct result of violations in the past by trusted students. I agree to abide by these rules.
